Sourcebook of Family Theory and Research

Alan C. Acock, Vern L. Bengtson, Katherine R. Allen, Peggy Dilworth-Anderson, David M. Klein, *Editors*

This is a detailed table of contents. Many authors of chapters and features have contributed supplemental material that extends their contributions that appear in the *Sourcebook*. We anticipate updating this periodically when new material is received from the authors, so check back at least once every six months. Some of this material assumes you have the Sourcebook. The additional material is highlighted in blue and may be called "supplemental material," "annotated bibliography," etc. All you need to do is click on these and they will open, usually as an Adobe PDF file (requiring acrobat reader). Some authors have multiple additional contributions such as a supplement and an annotated bibliography, so check out all of these.

Some authors do not have any additional content and simply appear as part of the table of contents. If you use content authors have contributed as a supplement in a paper you write, you should cite their work and include it in your references. Here is an example of how to cite it in your references:
